

# OPIOID ABUSE KILLS

Why lose a loved one to opioid addiction?  
There are safer options for pain relief.

Take the first step and talk with a Doctor of Chiropractic for back, low back and neck pain, headaches, neuro-musculoskeletal and other related conditions.

With a minimum of seven years higher education, Doctors of Chiropractic offer conservative, drug-free care – the optimal alternative to opioids for pain management.

- Improved clinical outcomes
- Reduced costs
- High levels of patient satisfaction
