

SAFETY

DID YOU KNOW?

Chiropractic care

**is a safe, effective first option for
pain management: back, neck,
acute or chronic neuro-musculoskeletal
conditions, and headaches —
among other conditions.**

**DRUG FREE, NON-SURGICAL,
EVIDENCE-BASED**

**Doctors of Chiropractic are primary care
professionals for spinal health and well-being,
dedicated to conservative care that provides
Americans an alternative to prescription drug use,
abuse and opioid dependency.**
