FOR IMMEDIATE RELEASE

Dr. Fabrizio Mancini, President of Parker University, Appears with “*The Doctors*” to Discuss Chiropractic

“The Doctors” engage television audiences to focus on pain and its underlying causes: April 23, 2012, http://www.thedoctorstv.com/main/local_listings

CARMICHAEL, Calif.; DALLAS, Tex. – April 18, 2012 – The [Foundation for Chiropractic Progress](#) (F4CP), a not-for-profit organization dedicated to raising awareness about the value of chiropractic care, is pleased to announce that one of its board members, Dr. Fabrizio Mancini, president of Dallas, Texas-based [Parker University](#), will promote the importance of chiropractic care on “*The Doctors*”, April 23, 2012. The popular, syndicated daytime talk show will feature Dr. Mancini as its prominent guest during an upcoming segment focusing on pain and underlying causes.

“*The Doctors*’ provide an opportunity for millions to learn about the value of chiropractic care,” says Dr. Mancini. “The unique, holistic care provided by a doctor of chiropractic can be beneficial to patients suffering from a variety of common conditions that result in pain and suffering, as well as to those striving to improve their health.”

The popular broadcast, distributed by [CBS Television Distribution](#), provides its viewers with easy-to-understand information about common issues surrounding health, medical care and drugs. It relies on the support of a panel of distinguished practitioners, including an ER physician, obstetrician/gynecologist, plastic surgeon/reconstructive surgery expert, and pediatrician.

“Since the show does not have a chiropractor on staff, it is important that the audience receives a thorough, educational segment about chiropractic care,” shares Dr. Mancini. “During this segment, a patient suffering from low back pain is provided with a chiropractic exam and proper treatment. Following is an insightful discussion about the patient’s overall treatment course and current progress.”

Viewers can expect to learn about the real value of chiropractic care and its unique health benefits. In addition, Dr. Mancini specifically addresses the underlying emotional, physical and chemical stresses – that lie at the root of a number of health issues.

“Chiropractic care has proven to restore the quality of life in so many patients, and it is my mission to continue sharing its benefits with as many individuals as possible,” concludes Dr. Mancini.
