Save Lives. Stop Opioid Abuse. Choose Chiropractic.

THE PROFESSION'S FIRST NATIONAL PRESS BRIEFING AT THE NATIONAL PRESS CLUB

Stay tuned for a virtual link to watch this historic event take place.

March 14, 2017, 3:00 p.m. – 4:15 p.m.

Sponsored by [Foundation for Chiropractic Progress®](#)

Join our campaign!

New restrictions on opioids, more responsible clinician prescribing and reduced patient access to painkillers is challenging the lives of millions of Americans who are suffering with chronic pain.

Save Lives. Stop Opioid Abuse. Choose Chiropractic. Campaign provides information and education about drug-free management of back, neck and musculoskeletal pain.

The national press briefing will articulate the benefits of evidence-based, drug-free chiropractic care as a primary approach to the management of acute and chronic pain:

- *Educate media and attendees about the role of chiropractic in providing effective, drug-free pain management*
- *Present white papers: '[Chiropractic: A Safer Strategy than Opioids](#)' and '[Chiropractic: Key to America's Opioid Exit Strategy](#)'*
- *Introduce Opioid Toolkits 1.0 and 2.0*

WHY: Patients with chronic pain and restricted access to pain medications require quality alternative solutions that are available, affordable and provide effective results.

KEY PRESENTERS:

- Myra Christopher, Director, [Pain Action Alliance to Implement a National Strategy](#) (PAINS)
- Jan Chambers, President, [National Fibromyalgia and Chronic Pain Association](#) (NFMCPA)
- Kent Greenawalt, CEO, [Foot Levelers, Inc.](#)
- Larry Boress, President and CEO, [Midwest Business Group on Health](#) and Executive Director, [National Association of Worksite Health Centers](#)
- David Thomas, PhD, Deputy Director, Division of Clinical Neuroscience and Behavioral Research, [National Institute on Drug Abuse](#), [NIH Pain Consortium](#)

- Be prepared in advance -- draft a Crisis Communications Plan for the organization.
- Appoint a chief spokesperson to represent the organization. Only the chief spokesperson and back-up spokespeople are authorized to release information to the media and to the public.
- "No comment" is never an acceptable response.
- Draft talking points in advance of the crisis – topics: safety of chiropractic care, stroke, pediatrics, etc.

F4CP® SPONSORED OPIOID PRESENTATION:
'CHIROPRACTIC: A SAFER STRATEGY THAN OPIOIDS'

PRESENTERS:

- William Meeker, DC
- Gerard Clum, DC

- Laura Carabello

WHEN: March 18, 2017, 2:00 p.m. – 3:30 p.m.

DETAILS: The discussion will focus on chiropractic care as a key component of “America’s Opioid Exit Strategy.”

The evidence-based, drug-free chiropractic approach provides the opportunity to perform first-line treatment for back, neck and musculoskeletal pain to avoid opiate prescribing, and an approach to chronic pain management that helps individuals achieve a wellness focused, pain-free lifestyle as they reduce their utilization of opioids.

The sheer magnitude of America’s prescription opioid abuse epidemic has evoked visceral responses and calls-to-action from public and private sectors. As longtime advocates of drug-free management of chronic back, neck, and musculoskeletal pain, the chiropractic profession is aligned with these important initiatives and committed to actively participate in solving the opioid addiction crisis.

CHIROPRACTIC: A SAFER STRATEGY THAN OPIOIDS

THE FACTS OVERDOSE DEATHS INVOLVING PRESCRIPTION OPIOIDS HAVE QUADRUPLED SINCE 1999, AND SO HAVE SALES OF THESE PRESCRIPTION DRUGS.

99% OF MEDICAL DOCTORS PRESCRIBE HIGHLY-ADDICTIVE OPIOIDS — AND FOR LONGER THAN THE 3-DAY PERIOD RECOMMENDED BY THE CDC. **THE PRESCRIBER PROBLEM**

AMERICANS WANT & DESERVE CHIROPRACTIC CARE

- CHIROPRACTIC CARE OFFERS A DRUG-FREE, NON-INVASIVE AND COST-EFFECTIVE ALTERNATIVE TO OPIOID DRUGS.
- CHIROPRACTIC IS THE LARGEST, AND BEST RECOGNIZED OF THE COMPLEMENTARY AND ALTERNATIVE HEALTH CARE PROFESSIONS.
- PATIENT USE OF CHIROPRACTIC HAS TRIPLED IN THE PAST 2 DECADES.
