

F4CP Introduces Group Membership

In our effort to unite the chiropractic profession as one voice, the F4CP introduces special group membership opportunities for state and national associations. Group Membership is much less expensive through state associations and includes premier class support. Like individual members, group members are listed on the F4CP's nationwide directory and have access to all marketing materials, practice-building webinars, the Athletic TIPS program, tool kits, and much more. State association members are encouraged to learn how easy it is for their association to join. United we can spread the good news about chiropractic to every community.

Michigan Association Of Chiropractors First State Group Member

The Foundation for Chiropractic Progress (F4CP) announces the enrollment of its first Group Member: Michigan Association of Chiropractors (MAC).

“Group Membership delivers tremendous value not only to our association as a whole, but also to our individual stakeholders, who now have access to countless benefits at no added cost,” says Kristine Dowell, executive director, MAC. “We are excited about this new opportunity with the F4CP, as it presents a fresh method for engaging our membership and advancing the chiropractic profession.”

Florida Chiropractic Association adds Almost 3,000 as Second Group Member

The Foundation for Chiropractic Progress (F4CP) welcomes the Florida Chiropractic Association (FCA) as our second Group Member.

“We are pleased to enter into this new level of support, which encourages our members to learn about and participate in the F4CP's powerful positive press campaign,” says Debbie Brown, CEO, FCA, who notes that 2,846 FCA members in full-time practice will be enrolled in F4CP membership. “We encourage other associations and vendors to explore the benefits of F4CP Group Membership, as it will directly benefit their member doctors while increasing exposure and success for the chiropractic community at large.”

Group Membership makes it extremely affordable for associations to support the profession, offer F4CP benefits and save their members money.
