*Two-Time Olympic Medalist
Member, USA Women's Hockey National Team*

“After my daughter’s concussion in March 2012, she could not function due to severe fatigue, nor could she read, use a computer or watch TV without headaches. After five months of the prescribed “rest” without improvement, she fortunately found her way to Dr. Ted Carrick’s Functional Neurology Clinic. There the comprehensive evaluation and treatment program started her on the way to recovery within a week. In addition, the continuity of care she has received has been critical for her complete recovery; we are most grateful for their expertise and commitment to their patients.”

BARBARA KINDER, MD (MOTHER)
*Professor Emeritus of Surgery
Yale University Medical School*
