

FOR IMMEDIATE RELEASE

**TESTIMONIALS REPRESENT CROSS SECTION OF SUPPORT FOR FOUNDATION FOR
CHIROPRACTIC PROGRESS**

Few programs within the chiropractic profession receive the broad support for the profession as does the Foundation for Chiropractic Progress. From the fields of education, professional associations, practicing doctors, and vendors, there is unity within the Foundation's mission of providing positive press for the chiropractic profession.

The Foundation is honored to have a multitude of testimonials from a host of chiropractors and vendors that reflects a broad cross section of the profession. The testimonials from the Presidents of the ICA and ACA are just one example of how the profession shares common ideas and purpose.

"This profession has long desired a public relations program. We believe that the Foundation has a clear and comprehensive plan to educate the public regarding the benefits of chiropractic care, and I am pleased to endorse this effort."

- Dr John Maltby, President, ICA

"The Foundation for Chiropractic Progress is working diligently for every doctor of chiropractic and every chiropractic supplier in this country. Its mission is to better educate the public about the profession, thereby increasing the market share to a more equitable level. This goal will only be met through significant financial support. I, along with other members of the American Chiropractic Association, have and will continue to donate funds for this essential work. It's an investment that we all must make to ensure a better future for ourselves, our patients and the chiropractic profession."

- Richard G. Brassard, DC, ACA President
